Langflow:

Mongo DB Before Ingestion:

Flow Execution on Langflow:

The screenshot displays the Langflow web application interface. On the left, a sidebar lists various components: Input & Output, Data Sources, Models & Agents, LLM Operations, Files & Knowledge, Processing, Flow Control, and Utilities. The main workspace shows a workflow with two components: 'Read File' (212ms) and 'MistralAI Embeddings' (711ms). The 'Read File' component is connected to the 'MistralAI Embeddings' component via a 'Structured Content' output. The 'MistralAI Embeddings' component is connected to a 'MongoDB Atlas' vector store component. The 'MongoDB Atlas' component is configured with the following settings: Database Name: append, Collection Name: test_cases, Index Name: vector_index_test, and Index Field: embedding. The 'MongoDB Atlas' component is also connected to a 'Search Query' input field. The 'Search Query' input field is connected to a 'Search Results' output field. The 'Search Results' output field is connected to a 'Stop' button. The 'Stop' button is labeled 'Running MongoDBAtlasVector-h8KyN' and '4.3s'. The 'Search Results' output field shows a 'Similarity' score of 90%.

This screenshot shows the same Langflow workflow as the previous one, but with updated settings for the 'MongoDB Atlas' component. The 'Number of Results' is now set to 4, and the 'Number of Dimensions' is set to 1024. The 'Search Results' output field now shows a 'Similarity' score of 90%. The 'Stop' button is now labeled 'Run component' and '25.9s'. The 'Search Results' output field shows a 'Similarity' score of 90%.

View Ingestion on Mongo DB:

The screenshot shows the MongoDB Cloud interface. The browser address bar displays the URL: https://cloud.mongodb.com/v2/6a2c3da0ad6f8544cdb9a045#/explorer/6a2c3e58f102759a21eb92a7/db_testcases/test_cases/find.

The interface is organized into several sections:

- Left Sidebar:** Contains navigation options like 'My Queries', 'Data Modeling', and 'CLUSTERS (1)'. A search bar for clusters is present.
- Top Bar:** Shows the organization 'Sowmyanarayanan's ...' and the project 'Project 0'.
- Main Content Area:**
 - Database/Collection Path:** Sowmyanarayanan > db_testcases > test_cases
 - Document Count:** 500
 - Query Bar:** Includes a search bar with the placeholder 'Type a query: { field: 'value' } or Generate query', and buttons for 'Explain', 'Reset', 'Find', and 'Options'.
 - Document Preview:** Displays a single document with the following fields:

```
{
  "_id": ObjectId("6a37821af70680e43d5fed05"),
  "text": "Verify Normal registration",
  "embedding": Array (1024),
  "module": "Registration",
  "testCaseId": "TC_001",
  "preRequisites": "Counter shift should be started for User",
  "title": "Normal Registration",
  "steps": "1.Launch the application
            2.Login to the application with valid credent..."
}
```
- Footer:** Includes the status 'Alert System Status: All Good', copyright information '©2026 MongoDB, Inc.', and links for 'Status', 'Terms', 'Privacy', 'Atlas Blog', and 'Contact Sales'.
