

phase2-week1-day1-langflow

The screenshot shows the Langflow application interface. On the left is a sidebar with a search bar and a list of components: Input & Output, Data Sources, Models & Agents, LLM Operations, Files & Knowledge, Processing, Flow Control, and Utilities. The main workspace displays a workflow titled 'Read_PDF'. It consists of three components connected in sequence: 'Read File', 'Groq', and 'Text Output'. The 'Read File' component is configured with the file 'PF_Transfer.pdf' (8.62 KB) and the 'Advanced Parser' is turned on. The 'Groq' component is configured with the system message 'Answer user's questions based on', the Groq API Key (masked), and the model 'llama-3.1-8b-instant'. The 'Text Output' component is configured to send text output via API. The workflow is connected by arrows indicating the flow of data from 'Read File' to 'Groq' and then to 'Text Output'. The bottom of the screen shows a Windows taskbar with various application icons and a system tray with the date and time (22:19, 30-05-2026).

The screenshot shows the Langflow application interface with a 'Component Output' dialog box open. The dialog box has a title bar with 'Component Output' and a close button. It contains a tabbed interface with 'Outputs' and 'Logs' tabs. The 'Outputs' tab is selected, showing the output of the 'Read File' component: 'Mobile Number: 9962520285'. The dialog box also has a 'Close' button at the bottom right. The background shows the same workflow as the previous screenshot, but it is dimmed. The bottom of the screen shows a Windows taskbar with various application icons and a system tray with the date and time (22:20, 30-05-2026).
